- Wake up and sleep timer functions
- Digital tuning with 40 preset stations for extra convenience

## Fits any space, any lifestyle

- Compact design
- Easy-to-use remote control included

**PHILIPS**  
sense and simplicity

# Highlights

## USB Direct

With the USB Direct mode, you can simply select the music on a USB device and playback all your content. All you have to do is plug in your USB device to playback music or export content from the device.

## Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls you can use to optimise the frequency ranges for different musical styles. Each mode uses

graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

## Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of

the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

# Specifications

## Sound

- Output power: 2 x 5 W, 2 x 10 W music power
- Sound enhancement: digital sound control 4 modes, Dynamic Bass Boost
